### Versions PSN

PSN-O Float switch for emptying  
Switch closed in upper position and  
switches the pump on

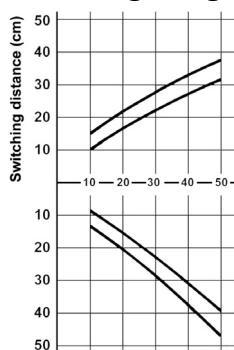

PSN-F Float switch for filling  
Switch opens in upper position and  
switches the pump off

PSN-X Float switch for filling  
and emptying with SPDT (without  
protective conductor)

### Accessories, Cable support

The recommended cable support accessory K-PS (see sketch above) used to set the lead length or the cable weight, BG-PS and IG-PS respectively, can be used to fix the cable to the required length.
